

The Chairperson, Dignitaries present, fellow proud members of MSA, Ladies and Gentlemen, I am Akudugu Wisdom Anabzua, a member of the PBL 2025 class, running for the Vice Presidential portfolio. I am before you this evening to state the ways I will move MSA forward if given the mandate and how I intend doing so.

Before I continue, I would like to compliment the works of our current and past executives, for it is through them that we seek to improve and not start to build MSA from scratch.

First and foremost, as part of the roles of the vice president, he/she is entitled to coordinate and ensure the running of the various standing committees. I plan to do this by improving the publications and advertisement of the various standing committees through the use of social media, the association's website, lecture hall campaigns and seminars.

I also intend to introduce intra-standing committees quizzes, where members of various standing committees will get to compete among themselves based on knowledge they have acquired as being members of their committees.

All the above campaigns will not just appeal to the minds but also give members in-depth knowledge on the activities of the standing committees, giving them a reason to join these committees.

Also, as some of us are aware, the current vice president, Hon. Damien Edward Akunlibe, has initiated the formation of certain committees which awaits approval by the General Assembly, notable among them is the academics committee.

The academic committee seeks to address the academic challenges of members of the association; thus preventing trails and helping members with resits in case they trail some blocks.

I intend to continue with the process of approval of these projects, ensure their future running and where possible, make amendments.

Furthermore, I will at all times avail myself and take up duties assigned to me by the General Assembly or the president, as it is one of the enshrined duties of the vice president, to assist the president in carrying out his/her duties and also, due the the fact that the president will be in his/her final year and will require enough time to prepare for his papers.

Finally, to ensure transparency, I in collaboration with the other executives will introduce General meetings with all members of the association. These meetings will provide avenues for members to criticize

the ways and workings of executives and provide alternative methods if need be. The general meetings will also offer executives the platform to account to members of the association their successes and failure since they took office.

Fellow proud members of MSA, it is no more business as usual for MSA, the most inclusive, transparent and student centered leadership is beckoning, it is Team Wisdom with the reviving hope and restoring faith message. Let all hearts be receptive to this message.

Vote Akudugu Wisdom Anabzua as the next MSA Vice President, for it is a new dawn of student leadership.

TOGETHER WE CAN

Thank you and have a good night.  
God bless you.
